351,585 |

Ocean trash is a serious pollution problem that affects the health of people, wildlife and local economies. Trash in the water and on the shore can kill marine animals, injure swimmers and beachgoers, and ensnare boat propellers.

Nearly 12 million people and counting have been part of the world's biggest volunteer effort to protect the ocean. Thousands of teams assist the Ocean Conservancy in this effort every year. Will you join the SWFAEP team for 2017?

[Click HERE to RSVP!](#)

Water bottles and a light breakfast will be provided for volunteers.
Please dress in clothes that you will be comfortable working in and can get wet or dirty.
Sun protection and bug spray are recommended.
Plastic gloves and trash bags will be provided.
